Screenshot for successful dotnet build:

Screenshot of the application running:

Screenshot of a successful borrowing transaction:

The screenshot shows the 'Available Equipment' page of the 'Campus Equipment Borrowing System'. The left sidebar has 'Equipment' selected. The main area shows a form to select a student and an expected return date. Below the form is a list of equipment items with their availability status. A message at the bottom indicates that the HDMI Projector has been successfully borrowed.

Campus Equipment Borrowing System

Available Equipment
Select a student, equipment item, and expected return date.

Student: Expected Return Date:

Item ID	Item Name	Status
#1	HDMI Projector	Not Available
#2	Laptop	Available
#3	Extension Cord	Available
#4	Speaker	Available

Successfully borrowed: HDMI Projector

Borrow Selected Equipment

Screenshot of a successful return transaction:

The screenshot shows the 'Active Borrowings' page of the 'Campus Equipment Borrowing System'. The left sidebar has 'Active Borrowings' selected. The main area shows a large empty box for viewing equipment currently borrowed by students. A message at the bottom indicates that borrowing #1 has been successfully returned.

Campus Equipment Borrowing System

Active Borrowings
View equipment currently borrowed by students.

Successfully returned borrowing #1.
